WHAT IS SEXUAL MISCONDUCT?

Sexual misconduct is any sexual conduct or activity that occurs without affirmative consent of any individual involved. NYCC prohibits all sexual misconduct, including:

- Dating Violence/Domestic Violence
- Sexual Assault/Violence
- Sexual Harassment/Exploitation
- Stalking

Definitions

Affirmative Consent: A knowing, voluntary, and mutual decision among all participants to engage in sexual activity. Consent can be given by words or actions, as long as those words or actions create clear permission regarding willingness to engage in the sexual activity. Silence or lack of resistance, in and of itself, does not demonstrate consent. Consent does not vary based upon a participant's sex, sexual orientation, gender identity, or gender expression.

Dating Violence: Refers to violence (hitting, punching, kicking, etc.) or the threat of such abuse committed by a person who is or has been in a social relationship of a romantic or intimate nature with the victim.

Domestic Violence: Physical violence between spouses or former spouses, cohabitating romantic partners, or former cohabitating romantic partners, individuals who share a child in common, who are similarly situated to spouses, or others in a domestic relationship protected by the family or domestic laws of the jurisdiction in which the violence occurs.

Sexual Violence: Includes rape, statutory rape, fondling, non-consensual sexual contact, and sexual exploitation, and is any intentional touching, however slight, for purposes of sexual gratification or with sexual intent, with an object or private bodily part, by a person upon another person without consent.

Stalking: Engaging in a course of conduct directed at a specific person that would cause a reasonable person to fear for his or her safety or the safety of others, or to suffer substantial emotional distress. Stalking behavior includes, but is not limited to, repeated, intentional following or observing another, or using “spyware” or other electronic means to gain impermissible access to a person’s private information.

Confidentiality: May be maintained only by a confidential resource designee. Complaints may be made anonymously, however, the nature of anonymous complaints may make the investigation, determination, and remediation more difficult and, at times, impossible.

Records generated in connection with reports, investigations, and disciplinary proceedings are maintained in confidential files, and only those with a right and need to know are permitted access.

Privacy: The College will protect the privacy of the all individuals to the extent practicable and appropriate under the circumstances.

SUPPORT FOR THOSE AFFECTED

Affected individuals have the **right to make a report to Campus Security, a Responsible Administrator (Title IX), Local Law Enforcement, and/or the New York State Police; they may also choose to not to report.** If reported to the College, a reporting individual will be protected from retaliation and will receive appropriate assistance and resources from the College.
